Clipso design®

Synopsis	03	Annaick Guitteny
	04	Agnès Lebeaupin
	06	Téo Jasmin
	08	Le Dean Burrus
	09	Praline et Couteau
	10	G. Thierry
	11	Marc B.

With a rich history as a textile-enhancing medium, the development of the technically avant-garde CLIPSO®, covering, and a pioneer in the field of digital printing, CLIPSO DESIGN® utilizes the latest techniques in very high definition digital printing, i.e. over 300 dpi.

CLIPSO DESIGN® is a technically innovative wall and ceiling covering. Its polyurethane-coated polyester structure is M1 category, with an exceptional width of 5 m, without seams or joins, means it can be adapted to all room forms and dimensions.

This novel technology allows stretched walls and ceilings to be installed all in one go, and ensures an unsurpassed resistance and evenness.

This covering is printed by digital technology (in millions of colours) and provides

decoration for walls and ceilings whether for new or for old places, with images from the CLIPSO DESIGN® collection or any other image you may care to choose.

The collections of images in the following pages give you an idea of what can be done. This is also updated, and thus may not remain the same. We will be happy to inform you about access to the photos in question, or if you want more detailed information about the printing of your own images.

Design Collection

CLIPSO DESIGN® will surprise you with its fabulous collections of wall decors created by talented designers and photographers. If you're an artist at heart, just contact us and we will fulfil whatever your wildest dreams can imagine.

Print Collection

Stand out from the others! At railway stations and airports, at fairs and exhibitions, on your stands, on walls and on ceilings, everywhere CLIPSO PRINT® is a dynamic and efficient communications medium.

Building Collection

CLIPSO BUILDING® meets all the challenges in the most unexpected construction or renovation situations, even in damp environments in collective buildings or in private homes.
